The Minister also announced the creation of an Observatory of Sunday trading. This Observatory will assess the reform of the opening of shops on Sundays in Paris to follow the international promotion, to measure the impact in terms of job creation, the effects on trade and activity including proximity and possible resulting costs for the city. It should bring together the prefect and the mayor of Paris, the district mayors, consular agencies and trade associations. These agreements must necessarily provide for compensation related to Sunday work, in any case an equivalent rest and counterparts implemented by the employer to offset the costs caused by child care.----------
Companies wishing to open on Sundays and evening as part of the ZTI will conduct a dialogue with employees as part of a sectoral agreement, group, territory or business. In companies with fewer than 11 employees, the entrepreneur will need to collect the majority agreement of its employees. Employees working in the evening beyond 21h must be paid double the employer will have to bear the return shipping costs to their home.
